

Southeastern NC Hazard Mitigation Plan Update

What is Hazard Mitigation?

Hazard mitigation:

Any sustained action taken to reduce or eliminate the long-term risk to human life and property from hazards.

2 main types of mitigation:

Mitigating impacts on existing development
Reducing the vulnerability of future development

6 main types of mitigation techniques:

Prevention
Property Protection
Natural Resource Management
Structural Projects
Emergency Services
Education and Awareness

What can you do to help?

Complete the Southeastern NC Regional Hazard Mitigation Plan 2025 Survey.

Encourage neighbors, family, and friends to complete the survey

Visit the ESP website and familiarize yourself with the steps, progress, and Public meeting dates.
